

## Technology Fusing

  
BDK-GLASS, spol. s r. o.

# Company BDK-GLASS, spol. s r.o.

is an exceptional company within the framework of glass industry thanks to its unique production technology, which takes up the results of glass research institute in State glass research institute in Hradec Králové. The key program there is the manufacturing of decorative and panel glass using the technology called fusing.

The fusing technology was tested in production and evaluated for trade in 1991. The company produces mainly decorative and utility bowls, trays, plates, glass candle holders, gift articles, hangers with various motives. Also custom-made glass panels for windows and doors are produced. The company created its own individual style. They create their own designs of products, which are characterized by modern fresh style and originality. Although all products are hand made, the company uses the manufacturing processes and technologies that enable as large variability, rationality, and productivity as possible in a way the final prices of the products were competitive. The whole production is completely ecological; in fact it is basically non-waste.

Since its beginning the company has supplied its products mainly to foreign markets in advanced European countries and in North America. Lately, the global chain stores have increased their

interest in deliveries of the products because their market is too saturated with the standard goods of the glass production /especially from Asia/. BDK-GLASS, spol. s r.o. is able to supply goods that is interesting for the customers thanks to its variability and original hand work. In last ten years also some of the foreign catering companies became the significant customers.

The character of the products is oriented on specific requests of the customers. This implies the particularity of the competitive environment. BDK-GLASS, spol. s r.o. keeps good long-term business relationships with its regular customers thanks to its flexibility and acquires new customers thanks to the originality of its products.

The philosophy of production of BDK-GLASS, spol. s r.o. lies in collective production of wide assortment of products with maximal stress on the design of the product and the lowest possible price level.

The strategic objective of the company is a satisfied and regular customer; therefore all marketing activities focus right on satisfying the customer.

BDK-GLASS, spol. s r. o.

Beauty is in simplicity ...

## Range of colors in BDK-GLASS production

Dark grey, grey, clear, extra clear and bronze colors are stained glass in the mass. Other colors are glass frits (powders) and can be used also partly on the product (for example on the rim only).

1 BDK-GLASS production hall

2 Decorating with glass frits (powders)

3 Cutting of glass sheets on CNC cutting machine

4 Our showroom

5 BDK-GLASS booth on Ambiente fair in Frankfurt a.M.
